Overview

Directs the education commissioner to include data on student homelessness and high mobility rates in required statewide reports on student performance.

Section

- 1 Reporting.** When publicly reporting test results data, directs the education commissioner to include data on young children and student homelessness and high mobility rates among the demographic factors that strongly correlate with student performance.
Makes this section effective immediately and applicable to school year reports for the 2015-2016 school year and later.
- 2 Student performance data.** Directs the education commissioner to include student homelessness and high mobility rates in school districts' demographic profiles when organizing and reporting student performance data to state and local policy makers.
Makes this section effective immediately and applicable to school year reports for the 2015-2016 school year and later.
- 3 School performance reports.** Includes student homelessness and district mobility rates among the statewide information the education commissioner must report annually.
Makes this section effective immediately and applicable to school year reports for the 2015-2016 school year and later.
